April 24, 1998

Dear Mr. Gaskill:

RE: 1997 Hazardous Waste Report
IND005253513

The above referenced company is listed in our records as a Large Quantity Generator (LQG) of hazardous waste. In December 1997 a copy of the 1997 Hazardous Waste Biennial Report was sent to the company. Indiana rules 329 IAC 3.1-7-14, 3.1-9-1 and 3.1-10-1 require that Treatment, Storage and Disposal Facilities and Large Quantity Generators (LQGs) submit this report by March 1 of every even-numbered year for the preceding year. To date, we have received no response from your company.

If this company acted as a large quantity generator during **any** one month in 1997, it is required to submit the report. If the company was a small quantity generator every month in 1997, or if no waste was generated, no report is required. **HOWEVER**, the enclosed Hazardous Waste Handler Update form must be returned so that we can update our records. Please indicate clearly your future status as well as what your status was in 1997.

Failure to respond to this correspondence will lead to a referral to the Office of Enforcement. If you have any questions, please call Ms. Jenny Ranck Dooley at 317-232-8925.

Sincerely,

Jenny Ranck Dooley
